

Bringing You A "Library 2.0" Perspective, by Michael Casey

Netvibes Continues to Please

[Netvibes](#), the browser-based RSS aggregator, continues to amaze me with its offerings. Besides being a truly simple and flexible feed aggregator, Netvibes now makes it easy to integrate your Gmail account, [Writely](#) documents, and [Flickr](#) photos into your browser desktop. If you haven't tried Netvibes, give it a shot and see what [Windows Live](#) has to catch up to.
