Joy of Computing: Recipes for a 5-Star Library

I've spoken about TechSoup's [MaintainIT Project](#) before and I'm very excited to hear that they released their latest cookbook, complete with the same easy-to-follow tips, techniques, and stories about supporting public computers from libraries across the country.

[Download the FREE Joy of Computing: Recipes for a 5-Star Library.](#)

The newest cookbook covers everything from setting up public wireless to time and print management for your customer computers. It even has information on setting up a laptop checkout program. Also, I'm very happy to see several Georgia contributors in this latest Cookbook:

- Rhonda Bartlett, Lake Blackshear Regional Library
- Sara Paulk, Fitzgerald-Ben Hill County Library
- Valerie Stroylis, Lake Blackshear Regional Library

The MaintainIT Project asks that you get in touch and share your challenges and successes so libraries can learn from *your* experiences. Email them at maintainit@techsoup.org
